MOOD: 😊 optimistic

MUSIC: Seether - Given

not to be dancing around the bullpen singing "T.F.A.T.P." to the tune of "and Bingo was his name-o."

This is probably not what they really want out of somebody who's working on being licensed to carry loaded firearms on civilian passenger aircraft, is it?

If I get tired of this job, though, I bet I'd make an *awesome* air marshall.

This looks like a good idea.

...

This.

...

Little guy's not bad.

Gotta teach RHex to smear.

It's just as well the American public doesn't know who's up there flying coach with loaded guns.

If they had any idea, they'd ask for their taxes back.

If I shot you now, my lawyer would raise the Horrible Earworm defense, and no jury on the planet would convict me.

It also scans to "Why Can't We Be Friends," by War.

Armed in friendly ski-es, shooting invizibul terwwowists,
Shooting 'round the service cart and in the aircraft ais-les;
Waiting for the pilot to turn off the seatbelt sign,
We shall come in shooting, shooting in the ais-les.

There was a fibbie who had a gun,
And took it on an air-plane.

T.F.A.T.P.

T.F.A.T.P.

T.F.A.T.P.

Flying armed was the program!
